

Use the best you have.

Record with the nicest cell phone camera you have available.

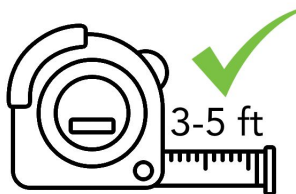

Hotdog, not hamburger.

Record in landscape mode for a wide-not tall-image.

Use a quiet environment.

Eliminate background noises from appliances, fans, TVs, etc.

Choose a good distance.

Not too close or too far. Get about half your body in the shot.

Speak loudly and clearly.

Read and speak with confidence and strength.

Keep it lit!

Ensure your face is well-lit and your background isn't too bright.

Be you.

You are a beloved member of this community. You can help project, share, and spread the love so many need right now.

Other "Pro Tips":

- Have a friend or family member help you prop your camera up or have them hold it steady.
- Have an NRSV bible that you love? Read your scripture from your own bible!
- Have Christmas decorations, a fireplace, or other location in mind with character? Show it off! Everyone is at home and can relate. Seeing others worship in their homes is comforting.
